TAX-PAYERS MUST FOOT IT.

Heavy Bill of Expenses Incurred by the

Government During the Strike. The tax-payers of the United States at large will have a considerable bill to foot to meet the expenses incurred by the national Government during the strike, That this will be considerable there can be no doubt, but at present it is not possible for the accounting officers to reach even an approxi-

mate estimate of the total.

The Attorney General sent to Congress
July 14 a communication asking for a defisiency appropriation of \$250,000 to defray the
expense of retaining United States marshals
and deputies for service during the Coxey
movements and the strike. He is satisfied
now that all of this money and more perhaps
will be required to meet expenses.

The limited annual appropriation for the transportation of troops was at a low eight when the strike occurred, and in consequence of these extraordinary expenses the War Description. of these extraordinary expenses the War De-partment has had to forego altogether its usual Summer practice of transferring troopr from one station to another, and therefore much hardship will result to the troops sta-tioned at posts in the extreme South and in the Indian country, who had reasonably ex-pected to be transferred to less arduous service after serving their turn.

District as rendered yesterday and submitted to the Commissioners. It was brought out by the request of G. W. Lockhart and R. D. Weaver & Co. for permission to connect their premises with the electric wires of the George-town and Tennallytown Railway Company for the purpose of running electric fans in their places of business on Thirty-second atreet.

The attorney thinks that it is the Commissioners' duty to see that no new use of a street is made by a railway company without its proper license from the right authority. A company, he holds, can dispose of its surplus power to parties in its own building, as in the case of the power-house of the Washington and Georgetown Railroad Company, but it cannot go out of it and sel, it and use a street for conveying the power along wires.

lost. Hedley allowed him to get knocked about, pinned in and cut off, and even then he fluished a fair third.

As a rule a widely tipped and touted good thing fails to go through, but this was not the case with Mike Daily's two-year-old McFonso, entered in the maiden race for youngsters. Everyone at the track seemed to have the tip and crowded about the books waiting for a price. Dan Donnelly broke the ice by chalking up 10 to 1, and the rush to get on was something frightful. But Dan winked the other eye and took not a dollar of the offered hundreds. The only money that did go on was at 4 to 5, and this was shortened to 1 to 3 at the close. Several hundred dollars was played on the colt in the Albany pool room at the average price of 4 to 5. For a wonder McFonso won easily.

In the opening event Graceful closed a shade the choice over Delury, but the latter came away in the stretch and won easily. In the second Cheddar was first and Miss Bess second choice. In a break Tedd Gegg ran into Miss Bess, throwing the latter to her knees and unshipping Jockey Donnelly. The mare ran away one mile and five-eighths and was withdrawn. Cheddar won easily. Lyrist was backed down to 7 to 10 to win the third, and he did the act in a romp. Summaries: Pennsylvania State League results: Lan-caster, 8; Philadelphia, 5. Scranton, 13; Pottsville, 7. Questions of Their Illegality to Be Sub-

Murphy and Moore Baced all the Speed Out of Their Mounts and Had Nothing Left with Which to Finish-Four Well-backed Choices Landed in Front.

It was rainy, cold, and cheerless at the Island track yesterday, yet the attendance was almost up to the average and the racing was fairly interesting. In spite of the heavy track well-backed choices captured the first four races, while in the fifth the winner turned up in Missive, the extreme outsider, who was at 30 to 1 in the betting.

SATOLLI DROPS THE MATTER.

There May Yet, However, Be Interesting Developments in the Cincinnati Diocese Liquor Case.

It was intimated at Mgr. Satolli's residence resterday that some interesting developments in the much-discussed liquor case may be forthcoming later, though it is said to be the present intention of the ablegate to drop the matter and let the diocese of Cincinnati hereafter attend to all matters growing out of the

affair.

It was stated by one of the archbishop's friends that the decision, which had been known to outside parties prior to its publication, was intended to apply only to the immediate jurisdiction of Bishop Watterson, who is characterized as an intense adherent of the temperance causes. temperance cause.

The real aim, it was explained, was merely

to influence those of the diocese who were addicted to the use of liquor to use intoxicating stimulants with more moderation, as many cases of want caused by their excessive use had been brought to his attention and had

aroused his sympathy.

Whether any communications had been issued from liquor dealers as a result of his ruling. Archbishep Satolli refused to say, but it is believed that several dealers have submitted protests. The archbishop, according to an informant, regards many of the published statements about the case as intendiched statements about the case as intendiched. lished statements about the case as inten-tional misrepresentations, but does not regret the publication of the full letter to the bishop. the publication of the full letter to the bishop.

It was expected by some that Rishop Watterson would visit Washington to confer with the archbishop, but this belief is not confirmed at the latter's home. The last visit of the bishop here was about a month ago,

DISTRICT DAY SACRIFICED.

Chairman Heard's Plans Frustrated by Greater Attractions in the Senate. Yesterday was District day in the House

mail clerks discharged in the closing days of the Harrison administration.

Mr. Heard had made a list of bills which he intended to push, the first being the bill to provide for the free departmental library for the District. Realizing that an attempt to secure action on any bills would be a waste of time he consented to an adjournment, which took place about 1.30.

Our Removal Sale

Is evidently worrying our friends in the trade. Since we've started about a dozen different "remarkable reduction" sales have broken out all over town. The victim who responds usually wishes he hadn't. The gentle process of "lifting," i. e., making the customer pay a higher price than he intended, is applied to him, and he goes home with less cash than he expected.
